

## Document Management in 30 Days at a Fraction of the Cost!

Frustrated by high entry costs for most traditional document management systems? *Inspire* by INDICIUM helps you gain control of your paper/electronic files and your business processes at a fraction of the cost.

*Inspire* provides the keys to document management success:

***Productivity*** • ***Integrity*** • ***Flexibility***

Streamline and simplify business processes, allowing your managers to concentrate on the handling of special cases and on employee development. Define document types, index fields, and file folder names. *Inspire* lets you standardize how your information is stored, how it is accessed and by whom, giving you the ability to balance workloads and control access.

**Capture, index, and import paper and electronic documents**

**Consistently route, approve, and track work in progress**

**Protect and secure sensitive information**

*Inspire* is web-based and simple to install, getting you up and running fast. With *Inspire* you keep your capital investment small by buying only what you need. You can lower your cost even more by using our SaaS (Software as a Service) model, letting us host your application for you. Clients can store and access their information securely, while we manage and maintain the actual systems and storage, using our state of the art web-hosting technologies.

Gone are the days when you have to purchase an enterprise system to handle a unit or departmental problem. *Inspire* lets you start small and grow as your business need grows. It provides a stable foundation for the future, protecting your investment with no 'throw-away' as your system grows to meet your business needs.

- ▶ ***Low start-up cost***
- ▶ ***Quick & easy to install***
- ▶ ***Foundation for the future***
- ▶ ***Easily upgradable as your needs grow***
- ▶ ***Can be hosted on our servers (SaaS)***

## Product Comparison
